System Overview:
Employee Management System for Vivasoft Limited

Objective: To streamline project tracking and employee management by providing a centralized system for both employees and top-level management.

Key Features:

1. **Two-Sided Access:**
   - **Employee Side:**
     - Dedicated profiles for updating project progress.
     - View assigned projects and deadlines.
   - **Management Side:**
     - Dashboard to track total employees, engaged/free employees, and project progress.
     - Assign/reassign employees and generate performance reports.
2. **Dashboard Highlights:**
   - Total employees, engaged/free status.
   - Project progress overview with status indicators.
   - Insights into employee workloads and deadlines.
3. **Project Management:**
   - Create, update, and manage projects.
   - Assign employees based on availability.
   - Monitor timelines and milestones.
4. **Technical Features:**
   - Web-based, mobile-responsive application.
   - Secure backend with role-based access.

Benefits:
- Enhanced visibility into project and employee status.
- Improved accountability and resource allocation.

Conclusion: This system will empower Vivasoft Limited to efficiently manage workforce and projects, boosting productivity and transparency.
